WONDERS OF THE MODERN WORLD

Medical Science

Surely nothing has done more for the comfort and happiness of mankind than the advance of medical knowledge! How many millions of people have benefited from the humble aspirin? How many lives has penicillin saved? Average life expectancy in Europe has risen dramatically over the last hundred years, from about 50 years in 1906 to about 75 years today.

Holidays

Yes – holidays! In fact there have always been holidays – in ancient Rome there were more than 150 a year – but a holiday used to mean simply a day when you didn't work. Now holidaymakers travel to all parts of the world. Perhaps you don't like so many tourists in your country, but you must agree that a phenomenon which sees the population of Greece treble in summer, and which sends office workers and shop assistants to Spain, Turkey, or the Caribbean is a wonder of the world.

- 1 The writer thinks that men have benefited more from medicine than women. _____
- 2 People can expect to live about twenty-five years longer today compared with 1906. _____
- 3 The writer agrees with people who don't like tourists in their country. _____
